Oldham's under five year olds have some of the worst tooth decay in the country and so the council is urging all parents and schools to back their borough-wide dental campaign. To launch the campaign, a 'Big Brush' was held from the 17th-21st November 2017.

In school, all children have been learning to clean their teeth correctly and discussing the importance of good dental hygiene. We would like to say a special thanks to Michelle Clegg, the oral health lead practitioner from Bridgewater Community Healthcare, for kindly providing all of our children with new toothbrushes and tubes of toothpaste.
