# What is an Eco Ambassador?

- An Eco Ambassador is an someone who is passionate about the environment and actively works to protect it.
- Eco-Warriors are like environmental superheroes who help save energy, reduce waste, and look after wildlife. They make positive changes in their school and community to keep the world clean, green, and healthy.
- Anyone can be an Eco Warrior by making small, daily changes that add up to a big difference, such as turning off "vampire" devices on standby, using less plastic, and educating others.

# Why is it important to think about our environment?

- We need our environment. Our environment is where we get everything we need to survive and it does so much for us. The world is huge, but the things that humans need are not found everywhere.
- Our world gives us clean air, water, food, materials and space for us to use for enjoyment. If we do not take care of the planet and its climate we will decrease the quality of our lives and, perhaps most directly, harm our own well being and those of our future generations.

# What does Sustainability mean?

- It is about taking care of the Earth, using resources like water and energy wisely and reducing waste so there is enough for the future. It means making choices today that don't harm the planet tomorrow.

# What can we do to become sustainable?

- Protect Resources by ensuring we do not run out of important things like water, forests, and clean air.
- Think about the future about ways you can continue using and doing things forever without harming the environment.
- We need to think about future generations and look after the planet so that children in the future have a healthy place to live.

# Beever's 5C's of Sustainability

**C**

## **Clean**

**Means we need to protect our planet by keeping it clean and trying to use clean energy.**

**C**

## **Community**

**Means everyone in school needs to work together to help protect our environment.**

**C**

## **Culture**

**We all need to change how we think and start protecting and appreciating our planet.**

**C**

## **Care**

**We need to care about each other, our environment and for our future generations.**

**C**

## **Corporate Governance**

**The government and businesses also need to think about our environment and play their part.**

At Beever, we are a community – our 5C's are at the heart of everything we do. We all need to work together to become more sustainable by recycling and keeping our environment clean.

# Being an Eco-Warrior?

Eco Warriors | A Green Mission to Save the Earth

# How can you be an Eco-Warrior?

- You can **Reduce, Re-use, Recycle** by helping sort rubbish to make sure less ends up in landfills.

- You can **Save Energy** by turning off lights, computers, and taps when they aren't being used.

- You can help **Protect Nature** by planting trees, growing your own food, or do litter picks to keep surroundings tidy.
- You can **Spread the Word** by encouraging friends and family to make eco-friendly choices, like walking to school or using reusable bottles.

# What happens to things that are not recycled?

- Visual Pollution
- Smell Pollution
- Environmental damage
- Harmful to animals and their habitats
- Wind blows waste material into water harming marine life

# The Green Gazette

- We would love to know your thoughts about our world and it's environment. If you would like to contribute towards our newsletter then let us know!
- All contributions are welcome
