

Money

Most people earn money for doing their job. Different jobs pay different amounts of money. Look at some of the different coins we use (use real ones if possible).

- Which is a 5 pence coin?
- Which one is worth 1 pound?
- Can you tell me what this coin is worth?
- Select two or three coins. How much altogether?

Look at the items for sale in this shop. Select the exact coins to pay for each item.

- How much would the teddy and the car cost altogether?
- If you used a 10 pence coin to pay for the pencil, how much change would you get?
