

Physical Education Curriculum

All pupils at Beever Primary School have the right to access rich, deep learning experiences, which balance all the aspects of physical education. At Beever, we have a high-quality physical education curriculum which inspires all pupils to succeed and excel in physically demanding activities. Our school also provides opportunities to take part and excel in competitive sports and interact with other schools and provisions. High quality delivery and opportunities provided, allows our pupils to develop skills important within our society such as team work, resilience and to embed values such as fairness and respect.

We encourage all of our children to become physically confident in a way which supports their health and fitness. All children are encouraged to live a healthy lifestyle and understand the importance of good health and diet. Physical Education has strong links with other areas of the curriculum and we provide opportunities to incorporate this allowing them to continually be active and healthy.

At Beever Primary School, our break and dinner time provisions allow the children to practice and improve skills they learn within lessons with other peers by having a range of equipment and activities widely available. We also appoint sports ambassadors, who are good role models to initiate and encourage Physical Education outside of the classroom. This ensures that high-quality physical education is widely available across the school at all times and pupils can express themselves and develop their ideas to sports ambassadors.

At Beever Primary School, we teach a curriculum which ensures all pupils can:

- develop competence to excel in a broad range of physical activities
- become physically active for sustained periods of time
- engage in competitive sports and activities
- lead healthy, active lives.

We follow the programme of study set out in the National Curriculum to deliver our Physical Education. At Beever Primary School we also access other provisions from Sports development where a specialist coach provides high-quality teaching and improves the CPD of staff members. Year 3 and 4 have additional provisions as they attend weekly swimming sessions to ensure they develop life skills and survival skills.

The children's sporting achievements are celebrated and shared with peers and parents. Every week whole school assemblies take place where children are rewarded for their sporting achievements. We also share information on our school website and via our Twitter page. These celebrations are shared as they promote physical education throughout the school and wider community.
